RESOLUTION FCD 2002R002

**PERMIT TO WORK
IN
FLOOD CONTROL DISTRICT OF MARICOPA COUNTY
REAL PROPERTY**

AGENDA ITEM: C-69-02-088-6-00

WHEREAS, the Flood Control District of Maricopa County, hereinafter referred to as the DISTRICT, has been established in accordance with provisions of Arizona Revised Statutes Title 48, Chapter 21 for the purpose of acquiring, constructing, maintaining and operating flood control facilities to control the waters of rivers and streams, and other surface waters to prevent the flooding of property and the endangering of lives of people, and

WHEREAS, the laws of the State of Arizona Title 48, Chapter 21, authorize the Board of Directors of the DISTRICT to control and manage said structures, channels and associated DISTRICT real property, and

WHEREAS, it is necessary in the public interest that all uses within the DISTRICT real property for flood control structures and channels by individuals, corporations and political subdivisions be regulated and controlled so that said DISTRICT real property may be effectively utilized and maintained for their primary purposes of flood control structures and ancillary services, and

WHEREAS, on September 24, 1997, the Board of Directors through its Chairman adopted Resolution FCD 97-02 to establish fees and usage of DISTRICT real property, and the DISTRICT desires to supersede that Resolution and adopt the following Resolution

5

NOW, THEREFORE, BE IT RESOLVED that no person, corporation, association or other political subdivision shall, without first obtaining a permit therefore, enter DISTRICT real property for the purpose of performing construction of any kind, reconstruction, removal, repair, maintenance or any other work or activities, including, but not limited to the following

- 1 Pavement, curbs, gutters, driveways, sidewalks, and roadways,
- 2 Drainage or flood control facilities,
- 3 Grading, oiling, graveling or any surfacing of any road, street, alley or way,
- 4 Water, gas, sewer or other types of pipelines,
- 5 Irrigation, wells, wastewater, water quality and groundwater recharge facilities,
- 6 Utility lines such as electric, television, telephone, communications and other facilities above ground or sub-surface,
- 7 Structures, signs (whether temporary or permanent),
- 8 Temporary construction, parking and storage yards,
- 9 Temporary ingress/egress, including but not limited to field studies, field investigations, recreational activities and uses of any kind,
- 10 Plantings, landscaping, watering and/or drainage systems, and decorative placements

BE IT FURTHER RESOLVED that the Board of Directors of the DISTRICT hereby authorizes the Chief Engineer and General Manager of the DISTRICT or his designated agent to issue such permits and to take such actions designated as DISTRICT actions herein "DISTRICT" when used hereafter in this Resolution shall refer to the Board of Directors, the Chief Engineer and General Manager or his designee

BE IT FURTHER RESOLVED that all applications for such permits shall be in writing on such form as required by the Chief Engineer and General Manager, unless waived in writing by the Chief Engineer and General Manager. The application shall be accompanied by no less than six (6) copies of plans, reports and calculations or similar exhibits of a size and in the quantity prescribed by the DISTRICT, sufficient to clearly illustrate the location, dimensions, motive, method and purpose of the proposed work

BE IT FURTHER RESOLVED that the DISTRICT is authorized to require permit applicants to take all actions, precautions and measures that the DISTRICT finds necessary to maintain the integrity of the DISTRICT'S real property where issues of public safety and liability are involved, such as but not limited to permits which impact dams, flood retarding structures and levees

BE IT FURTHER RESOLVED that the DISTRICT may require part or full time qualified independent inspection of the permitted activity, at the cost of the Permittee, when it is determined by the DISTRICT that the permit involves a significant issue of public safety or potentially significant impact to DISTRICT real property. Such determination and requirement will be made solely by the DISTRICT on a case-by-case basis

Applicants for such permits may be either a design engineer, developer or a contractor, however, the work may be performed only by (1) a permitted contractor, (2) utility company, (3) governmental agency, or (4) resident owner of residential property, where the applicant proposes to do the work. Permits shall be issued only to the person, corporation or political subdivision making application therefore and may not be assigned or transferred to another person, corporation or political subdivision by the Permittee. If a Permittee assigns his permit to another, the permit shall become void. A permit shall be valid for the time as indicated on the permit, unless canceled or revoked sooner. If work is not

completed within the allotted time period, an extension may be granted. If no work is performed after a permit is obtained, the Permittee may apply for cancellation of the permit in writing, prior to expiration.

BE IT FURTHER RESOLVED that before any permit is issued, the applicant shall deposit with the DISTRICT an amount in legal tender acceptable to the DISTRICT in accordance with the schedule of fees attached hereto as **EXHIBIT A** and the estimated value of or a deposit for any easements required.

BE IT FURTHER RESOLVED that if any work is undertaken prior to securing a permit, all work shall cease until the Chief Engineer and General Manager or his agent determines whether the DISTRICT real property should be restored to its original condition or grants a permit in accordance with this resolution. The Chief Engineer and General Manager may require the DISTRICT'S real property to be restored to its original condition prior to granting a permit, and for any unpermitted activity shall assess an After-The-Fact administrative fee of \$1,500 in addition to the normal inspection, easement payment and rental fees, if applicable, the normal application fee, and the review fees prior to issuance of a permit. For all unpermitted activities by others on DISTRICT real property, the DISTRICT is authorized to recover its full cost to investigate and correct unpermitted activity and the DISTRICT is authorized to recover all costs associated with any subsequent permit related to the unpermitted activity. The determination of whether to impose full cost recovery will be made solely by the DISTRICT on a case-by-case basis in consideration of risk to public safety or in consideration of impacts to DISTRICT real property caused by the unpermitted activity. The DISTRICT may also seek to recover from those making unpermitted use of DISTRICT real property any and all cost and/or claims by third parties for personal injury and/or damages to real or personal property caused by the unpermitted use. The above conditions will be in addition to any civil or criminal penalties assessed against any trespassers or other entities using DISTRICT real property without first obtaining a permit.

BE IT FURTHER RESOLVED that the DISTRICT shall furnish to the applicants engineering and inspection services to determine if the improvements constructed are in accordance with the specifications and details for permits granted. Any persons or corporation, association, or political subdivision doing work under any permit as set forth in this resolution shall notify the DISTRICT at least two full working days in advance of the time and place the work will begin.

BE IT FURTHER RESOLVED that this resolution shall not prevent any person, corporation or political subdivision from making excavation to maintain any pipe or conduit lawfully on or under any DISTRICT real property, as may be necessary for the preservation of life or property, when an urgent necessity arises during the hours that the offices of the DISTRICT are closed. Any person, corporation or political subdivision making emergency use shall call the DISTRICT'S Blue Stake contact, provide written notification within 24 hours to the DISTRICT via fax with details of emergency measure and apply for a permit within three (3) business days after the DISTRICT offices are again opened or the person, corporation or political subdivision making emergency use of DISTRICT real property will be required to pay the additional fees as mentioned above. The full cost of remedying any impact to the function or operation of DISTRICT real property will be assessed to and paid by the person, corporation or political subdivision making such emergency use of DISTRICT real property. The DISTRICT may also seek to recover from those making emergency use of DISTRICT real property all costs and/or claims by third parties for personal injury and/or damages to real or personal property caused by the emergency use.

BE IT FURTHER RESOLVED that all work done in DISTRICT real property shall be done in accordance with the terms and conditions of the permit.

BE IT FURTHER RESOLVED that the DISTRICT shall require each applicant as referred to in this resolution, before granting the permit, to deposit with the DISTRICT a Performance Bond or a

5

Security in Lieu of Performance Bond in an amount as determined by the DISTRICT, not to exceed \$500,000 as a guarantee that the work will be completed in accordance with the permit. The Chief Engineer and General Manager or his agent at his sole discretion may waive the Security or Performance Bond.

The bond shall be joint and several in form and made payable to the DISTRICT. The bond shall be signed by the applicant, and a qualified surety company authorized to transact business in the State of Arizona. The condition shall be that the applicant will faithfully complete the work described in the application in accordance with the plans, specifications and conditions thereof.

The bond shall be released after all terms and conditions in the permit have been met and upon satisfactory completion and acceptance of the work, or may be canceled after the applicant has provided other security satisfactory to the DISTRICT which will cover obligations that remain. The bond is subject to cancellation as noted above, or may be terminated after all obligations are fulfilled which were "permitted" prior to the DISTRICT receiving cancellation notice from surety company. The surety company shall not cancel, change or amend any bond without thirty days prior written notice having been served on the DISTRICT.

BE IT FURTHER RESOLVED that the permit applicant shall be responsible for all liability for personal injury or property damage arising out of or related to work performed by the Permittee under permit. Permittee shall be required to indemnify and hold harmless the DISTRICT, its agents, officers, boards, employees, successors or assigns against any and all claims, actions, costs or expenses for property damages or personal injuries caused by or related to the rights granted in the permit. The Permittee shall defend, indemnify and hold them, and each of them, harmless from such claims, including claims alleging the joint negligence of the DISTRICT, its officers and employees and the Permittee. The requirement for indemnification for all liability shall extend to the person, corporation, or political subdivision for which such permit shall be acquired by a Permittee acting as agent for the entity.

No permit applicant shall be entitled to a permit under this resolution unless and until he has filed and maintains on file with the DISTRICT, a certificate certifying that the applicant and /or the applicant's company or business firm carries public liability and property damage insurance issued by an insurance carrier authorized to do business in the State of Arizona, insuring the applicant and the DISTRICT and its agents against loss by reason of injuries to, or death of persons or damages to property arising out of or related to work performed by the applicant under this section, and shall be provided by any Permittee in the following minimum amounts or greater as determined by Risk Management:

Commercial General Liability

- \$2,000,000 General Aggregate
- \$2,000,000 Products/Completed Operation Aggregate
- \$1,000,000 Each Occurrence

Failure by the applicant to provide the DISTRICT with such a certificate of insurance, and failure by the DISTRICT to demand the filing by Permittee of such a certificate before such a permit is issued, shall not be deemed to waive Permittee's obligation to provide the insurance specified herein. Such insurance certificate shall remain in effect and be kept on file with the DISTRICT until all work to be performed by the Permittee under the permit has been completed.

The insurance certificate shall provide that coverage cannot be canceled or expire without providing thirty days written notice of such action to the DISTRICT, also noting the permit number.

5

No evidence of liability insurance shall be required as a condition precedent to the issuance of a permit to a federal, state, county or municipal agency, political subdivision, or any public service corporation with a net worth of more than \$1,000,000, as reflected by its most current balance sheet

Issuance of permits as herein provided shall not eliminate any obligation by the applicant for any other permits that may be required by either federal, state, local or other county jurisdictions

BE IT FURTHER RESOLVED that this Resolution supersedes Resolution FCD 97-02 of the Board of Directors dated September 24, 1997

BE IT FURTHER RESOLVED that the effective date of the revised provisions of this Resolution shall be the date of signature by the Chairman of the Board of Directors

Dated this 24th day of July, 2002

Chairman, Board of Directors
